Vision, Mission, Values

About us

Mission

To Manufacture Quality Products to the highest industry standards.

To manage the company on a sound & professional financial basis to achieve the best reasonable return on investment.

To exceed Customers expectation for every product we deliver.

To create a positive working environment in which our workforce can achieve job satisfaction and career development.

To recruit qualified and experienced staff in all sections of the organization.

Diversify our sourcing of materials to ensure improvement on quality and delivery.

Liaise with international companies for technical alliances in order to always acquire latest technology of product.

Vision

To be recognized leading manufacturer of oilfield well intervention and well service equipment in our chosen markets.

Values

Happiness, Health, Safety Environment and quality must come first in everything we do in our Business.

We will conduct our Business at all times with integrity, transparency, strong ethical values and a commitment to serve. We will abide by the laws of land.

We believe that the most important asset of this Company is its employees. Trust, respect, fairness, empathy and dignity shall be how we treat each other within the spirit of working together.

Introduction

About us

2004

The Company was founded in **2004**
initially known as
Lee Specialties Middle East LLC (LSME).

2007

In August **2007** company
name was changed to
Specialized Oilfield Products LLC (SOP).

Manufacturer of Quality Wireline and Well Service Products

As an engineering, design and manufacturer, SOP has been known for manufacturing quality wireline truck and skid equipment with closed /open loop hydraulic systems. All equipment's are designed and built-in house.

We have now added to our staff and have diversified our product line adding design and manufacture of DNV 2.7-1 frames and containers plus added several lathes/milling machines and are now also manufacturing our own down hole wireline tools and general machining projects.

Specialized Oilfield Products manufactures and supply its equipment and products in many varied and often challenging geographical environments.

Our commitment has always been maintained to the highest quality standards and focused on health and safety of our employees and customers, as well as the protection of environment in the communities in which our equipment operates.

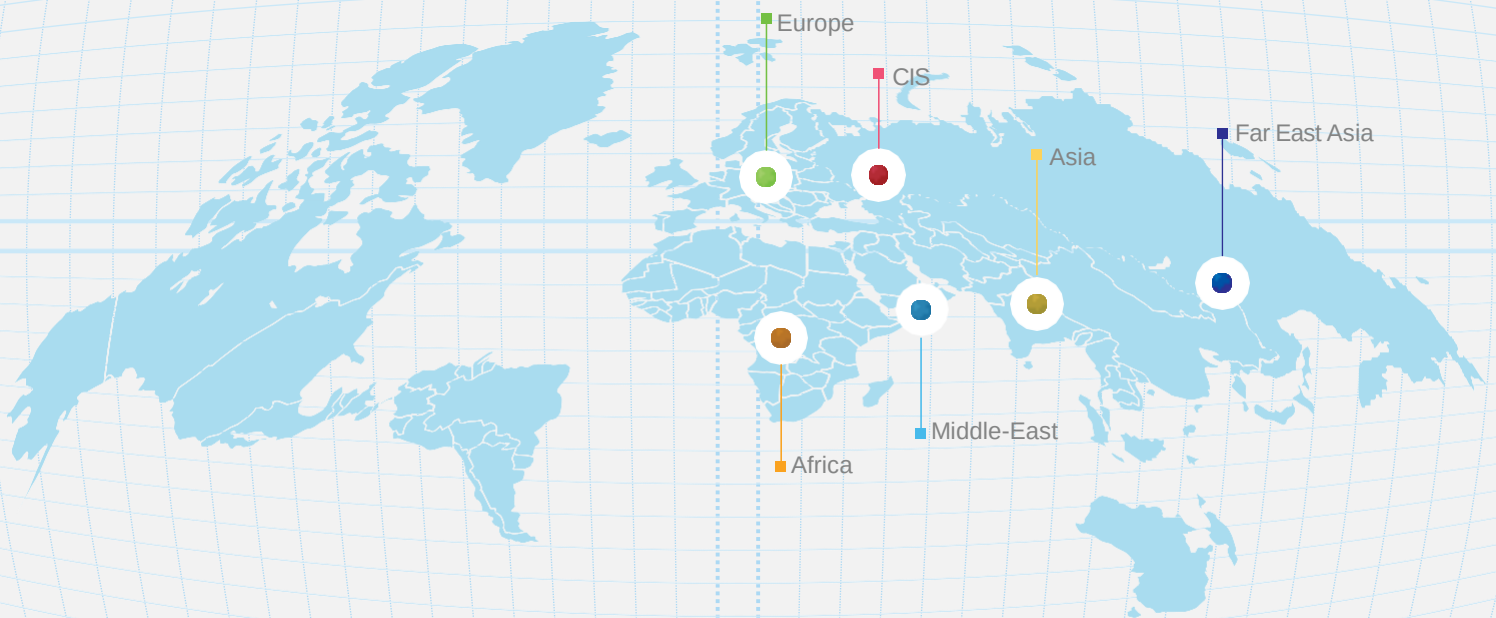

Our Global Presence

From a small scale production unit to support the local market, today SOP has grown globally and has equipment fleets globally.
